CONWAY Electric MTB full suspension "eWME 2.0" (#2)

Description

Our "eWME 2.0" is your ticket to big mountain action with Booster. The progressive geometry puts you centrally on the bike: the reach and stack are perfect for full control on steep climbs, while the slack head angle and short stem length make it agile downhill. The seat angle, wheelbase and Chain Stay ensure efficient uphill power - even with motor support. The drop and standover height give you freedom of movement when things get rough.

The Shimano EP-800 engine provides you with a finely dosed boost, while the 720 Wh Darfon batteries easily last until the last trail. With 160 mm at the front and 155 mm at the rear, the suspension swallows up everything in its path. The Shimano "Deore" 10-speed gears and hydraulic brakes are solid and reliable. The aluminum frame comes in an all-mountain design and with enough space for big Tires. Are you looking for a bike that shoots downhill and doesn't falter on the climbs? You've come to the right place.

Technical data

Battery capacity	720.0 Wh
Features	suspension fork, damper, electronic sliding aid
Colour designation	desert matt / black matt
Main colour	beige
Secondary colour	black
Travel	160 mm
Gender	gents
Gears	10-speed
Type	full suspension
Wheel size	29 "
Material 1	aluminium
Engine power	250 W
Frame height	50 cm
Weight	25.300 kg
Stem length	35.0 mm
Permissible system weight	130 kg
Chainstay	456 mm
Toptube	645 mm
Wheel distance	1272 mm
Reach	492 mm
Seat angle	75.5 °
Stack	648 mm
Steering tube	125 mm
Steering tube angle	65.0 °
