

Product data sheet

CONWAY Electric SUV "Cairon SUV 4.0" (#2)

Description

With the "Cairon SUV 4.0", you get an e-bike that not only looks powerful, but also drives powerfully. The Bosch mid-motor with Smart System takes you to your destination at speeds of up to 25 km/h - supported by an 800 Wh Battery that can be conveniently removed for charging. Want to go further? No problem: the bike is range extender-ready - for even more range on long tours.

The HTM 2.0 front carrier mount makes retrofitting luggage solutions simple and stable, while the BCM module-ready feature makes your bike fit for smart connectivity. With the 12-speed Shimano "Deore XT" gears, 120 mm suspension travel and pleasant handling, you are sporty, comfortable and safe on the road.

The sporty frame geometry including equipment suitable for everyday use and a permissible total weight of 140 kg make the bike the ideal companion for anyone who leads an active lifestyle - but doesn't want to compromise on comfort.
