CONWAY Electric MTB full suspension "Xyron LT 6.0" (#1)

Description

Welcome to the world of long-travel e-enduro bikes! The "Xyron LT 6.0 Alu" is your perfect entry-level bike and anything but basic. With 170 mm travel at the front and 160 mm at the rear plus the 29" wheels, it really swallows up any rough terrain. The Bosch mid-motor and 800 Wh battery will get you up to speed in a relaxed manner, even when things get steeper. The 100 Nm upgrade gives you a tailwind on the toughest climbs.

The riding position? Central, efficient and ready for altitude meters: 435 mm reach and a steep seat angle ensure optimum power transfer uphill without you lifting off the front. The Shimano "XT" 12-speed drivetrain and hydraulic Disc Brakes give you precise control, even when things get rough.

The well thought-out geometry ensures balanced handling - uphill with plenty of grip and pressure on the Front Wheel, downhill stable and directionally accurate without sacrificing maneuverability. Practical: the tool mount under the top tube and hidden stand mount on the rear triangle. And with a permissible total weight of 140 kg, you are also equipped for big adventures.

Technical data

Battery capacity	800.0 Wh
Features	suspension fork, damper, electronic sliding aid
Colour designation	olive matt / dusty yellow
Main colour	green
Secondary colour	yellow
Travel	170 mm
Gender	gents
Gears	12-speed
Type	full suspension
Wheel size	29 "
Material 1	aluminium
Engine power	250 W
Frame height	39 cm
Weight	26.900 kg
Stem length	40.0 mm
Permissible system weight	140 kg
Chainstay	453 mm
Toptube	573 mm
Wheel distance	1236 mm
Reach	435 mm
Seat tube	390 mm
Seat angle	76.6 °
Stack	622 mm
Steering tube	105 mm
Steering tube angle	63.5 °
