CONWAY MTB full suspension "WME 5.9" Mod. 24

Description

Are you looking for a trail bike with a sporty, balanced riding experience that will take you over hill and dale, through fields and meadows, through mountains and valleys? CONWAY's "WME 5.9" is such a bike and also shines with fine details. A new technical feature this year is the hydraulic "Slate Trail" disc brakes from TRP, which reliably stop the bike downhill.

The sporty, balanced riding feel is the result of the modern frame geometry with a shorter reach, longer wheelbase and slacker steering angle. The ROCKSHOX suspension with "Lyrik Select" Fork and "Deluxe Select+" Damper with 150 mm travel make the Fully really capable off-road. Meanwhile, the SCHWALBE tire mix of "Magic Mary" at the front and "Big Betty" at the rear with a width of 62 mm provides the right grip. The tried and tested 12-speed SHIMANO "XT" drives with a wide-range cassette with 10-51 teeth help when the going gets tough.

The "Drop-A-Gogo" Vario seatpost is one of the fine details that ensure you are always in the most efficient position on your bike. The same goes for the externally hooded bearing points, which are less susceptible to dust and mud and also ensure a clean look.

Technical data

Features	suspension fork, damper
Colour designation	graphite fade / acid metallic
Main colour	grey
Secondary colour	green
Travel	150 mm
Gender	gents
Gears	12-speed
Type	full suspension
Wheel size	29 "
Material 1	carbon
Frame height	46 cm
Weight	15.300 kg
Stem length	40.0 mm
Permissible system weight	130 kg
Chainstay	440 mm
Toptube	619 mm
Wheel distance	1227 mm
Reach	467 mm
Seat tube	460 mm
Seat angle	75.0 °
Stack	617 mm
Steering tube	110 mm
Steering tube angle	65.0 °
