

Product data sheet

CONWAY Electric SUV "Xyron C 2.0" (#1)

Description

The "Xyron C 2.0" is an SUV bike for anyone looking for comfort, safety and performance in a sporty package. The full suspension with 150 mm travel at the front and rear ensures relaxed Slider over asphalt, gravel and forest trails. The geometry puts you in an active but ergonomically balanced riding position - with direct control on the Handlebar and efficient pedaling, even on longer distances.

Thanks to the Bosch mid-motor and 800 Wh Battery, you can ride powerfully and enduringly up to 25 km/h. The Shimano derailleur gears offer you precise gear changes, while the hydraulic Disc Brakes ensure reliable deceleration. The frame architecture with a short Stem, flat steering angle and long wheelbase gives the bike confident handling - even at higher speeds.

With Fenders, easily removable Battery, HTM 2.0 front carrier mount, BCM module and Range Extender ready, you are ready for commutes, weekend tours and spontaneous trips into the countryside.
