

Product data sheet

CONWAY Electric MTB full suspension "Xyron LT 11.0" (#2)

Description

Bam—there it is, our top-of-the-line model! Featuring the brand-new FOX "Podium" USD fork, full Kashima coating, and tuned strictly for performance—ready for e-enduro racing! With 170 mm of front travel, 160 mm of rear travel, and a lightweight carbon frame for maximum trail performance, the frame provides the perfect foundation for the BOSCH "CX-R"—that's right, Bosch's race engine. It's powered by a 600 Wh battery, which offers the best balance between weight and capacity for most racing applications.

The riding position is centered and efficient—perfect for technical climbs and full control on descents. The flat head angle provides stability at high speeds. Up front, the SCHWALBE "Magic Mary Trail Pro" ensures maximum grip, while the SCHWALBE "Albert Gravity Pro" at the rear delivers plenty of traction and control—even during quick direction changes. With clever details like the tool mount and the hidden kickstand mount, you're well-equipped even off the trail.

Technical data

Battery capacity	600.0 Wh
Features	suspension fork, damper, electronic sliding aid
Colour designation	raw matt / black
Main colour	black
Travel	170 mm
Gender	gents
Gears	12-speed
Type	full suspension
Wheel size	29 "
Material 1	carbon
Engine power	250 W
Frame height	44 cm
Weight	23.200 kg
Stem length	40.0 mm
Permissible system weight	140 kg
Chainstay	453 mm
Toptube	618 mm
Wheel distance	1276 mm
Reach	475 mm
Seat tube	440 mm
Seat angle	76.6 °
Stack	644 mm
Steering tube	130 mm
Steering tube angle	63.5 °
