CONWAY Electric MTB hardtail "Cairon S 8.0" Mod. 23

Description

The "Cairon S 8.0" starts the new model year with a newly redesigned frame. The Battery is now fully integrated into the down tube. CONWAY has thus given the MTB a tidy look and the battery is also better protected against moisture and stone chips. In the 29er version, the bike shines with the best roll-over characteristics.

The BOSCH "Performance CX" engine, which is installed on the bottom bracket, provides powerful propulsion. It ensures balanced, natural handling even at top speeds of 25 km/h. It draws its energy from the 750 Wh battery, which is the highest-capacity battery of the "PowerTube" variants from BOSCH. The drivetrain is refined with the SHIMANO 11-speed "XT" derailleur system. Thanks to the new Linkglide technology, the Chain and cassette are significantly better protected against signs of wear.

The bike also scores points with its stable straight-line stability, the 120 mm travel of the ROCKSHOX "35 Gold RL" air Suspension Fork and the 65 mm wide "Johnny Watts" tires from SCHWALBE. Large hydraulic disc brakes (203/180 mm) bring you to a reliable stop - with sensitivity or spontaneous bite.

Technical data

Battery capacity	750.0 Wh
Features	suspension fork, electronic sliding aid
Colour designation	pearl white /copper metallic
Main colour	white
Secondary colour	gold
Travel	120 mm
Gender	ladies
Gears	11-speed
Type	hardtail
Wheel size	29 "
Material 1	aluminium
Engine power	250 W
Frame height	53 cm
Weight	25.600 kg
Stem length	35.0 mm
Permissible system weight	130 kg
Chainstay	455 mm
Toptube	640 mm
Wheel distance	1220 mm
Reach	468 mm
Seat tube	530 mm
Seat angle	74.5 °
Stack	658 mm
Steering tube	130 mm
Steering tube angle	67.0 °
