CONWAY MTB hardtail "MS 6.9" Mod. 24

Description

A reliable sports partner through and through - the CONWAY "MS 6.9" impresses with its balanced geometry and sporty riding position, which you automatically adopt on long tours through the countryside. New is the SRAM "SX Eagle" derailleur, which offers an entry into SRAM's world of 12-speed drives. Also the tires: WTB's "Ranger" 29er Tires bite firmly into loose ground with their lug tread and shine with high puncture protection.

The RST "Blaze" RLO Fork with its 100 mm travel ensures good damping comfort when riding on unpaved paths. In combination with the powerful SHIMANO "BR-MT200" hydraulic Disc Brakes, they contribute to safe handling - on all routes that you pass on tours.
